JBJS Reviews Associate Editor Openings

JBJS Reviews is seeking experienced and detail-oriented **Associate Editors** to join our editorial team. As an Associate Editor, you will play a critical role in the review of manuscript submissions, working to ensure the highest standards of quality, integrity, and efficiency for *JBJS Reviews*.

This role is ideal for clinicians and researchers who wish to be meaningfully involved in academic publishing, contribute to clinical impact, and collaborate with a respected editorial team. This role entails a 2-year term with the possibility of renewal dependent on performance.

Associate Editors will receive free online access to all JBJS journals for the duration of their tenure and recognition on the *JBJS Reviews* masthead.

Responsibilities

- **Manuscript Review**: Review manuscript submissions utilizing the Editorial Manager platform, ensuring quality and adherence to journal standards while maintaining excellent turnaround times (accepting invitations within 5 days, submitting reviews within 10-14 days of invitation acceptance).
- **Authoring Commentaries**: Write and submit brief invited articles commenting on select publications (primarily Current Concepts Reviews), particularly regarding their clinical relevance and impact on global orthopaedics.
- **Identifying Topics and Experts**: Identify and suggest relevant manuscript topics and potential authors, reviewers, and commentators, especially in your field of interest.
- **Commitment:** Participate in up to two virtual meetings of the Editorial Board yearly and respond promptly to emails from Editors and staff.

Key Qualifications:

- Clinical or research expertise in one or multiple orthopaedic subspecialties, previous reviewer experience preferred. In addition to the typical orthopaedic subspecialties, we are also interested in individuals with expertise in systematic reviews and meta-analysis, education and training, and orthopaedics in resource-limited environments.
- Highly responsive and comfortable with using online manuscript management platforms.
- Familiarity with peer review processes, editorial standards, and best practices in scholarly publishing.
- Excellent communication skills to engage effectively with fellow editors and guide authors through the revision process.

This is an exciting opportunity for a motivated individual to contribute to a top-tier journal, shaping the future of orthopaedic science communication.

If interested, please submit a brief letter of interest and current CV to editorial@jbjsreviews.org.
